

STANDARD HOPPER DRYER

FEATURE:

- Contact parts made of stainless steel.
- Precisely cast aluminum hull, smooth surface and good performance of maintaining temperature setting.
- Low noise blower, installed air filter with (optional) purity guaranteed.
- Material tank installed with side glass for inspection.
- Curve heating cylinder designed to avoid the burning caused by powder pile;
- Installed with proportional deviation display thermostat, to control temperature accurately.
- High-temperature type for 50-1500kg available, with double layer hopper tank, stainless steel heating cylinder, cooling type heater, high temperature resistance blower;
- Hopper specially designed for easy opening, suitable for all mechanical arm.

HOPPER DRYER ACCESSORIES

MATERIAL STORAGE TANK

- Customized tank available for all sizes of S/S hopper

MAGNETIC SEPARATOR

- Inserts at the lower cone bottom, filter out iron mixed with raw materials, optional model available.

SUNCTION BOX

- For standing type hopper dryer, easy for material suction and discharged

SUPPORT FRAME:

- Customized a variety of special structure frame for hopper dryer

DUST COLLECTOR

- Additional dust collector installed to avoid plastic particles splashing and provide a clean environment.

Note: We reserve the right to cancel or change the above specific model without any prior notice.
